Daniel R. Moisoff

WORK EXPERIENCE

App Academy, New York — *Software Engineering Program Instructor*
OCTOBER 2018 — PRESENT

Teach beginner-to-advanced level JavaScript to aspiring developers, providing a strong programming foundation for students.

The Mill, New York — *Color Editor*
JANUARY 2016 — FEBRUARY 2018

Color corrected client film projects, including as commercials, TV shows, and feature length films. Responsible for managing workflow, asset delivery, and data systems.

Vision On, New York — *Video Editor*
MARCH 2014 — OCTOBER 2015

Retouched special effects for commercials and short films. Managed exports for client review and final delivery.

WEB DEVELOPMENT PROJECTS

Shibe Runner — Browser-Based Game

Live Site | Github

Built using JavaScript. Players can help Shibe collect lost spirits while avoiding ghouls.

- Dynamically generated ghouls, spirits, and their attributes, which would update based on the player's current score.
- Controlled the creation of the ghouls and spirits through a function that measures an object's distance over time.
- Ensures that multiple game elements do not overlap while they are on the same y-axis.

Share Your Build — Full Stack Single Page Web Application

Live Site | Github

Built using Rails, PostgreSQL, React, and Redux. A space where DIY enthusiasts can share creative ideas, ranging from cooking recipes to costume guides.

- Used RESTful API design to perform full CRUD on projects, instructions, and comments.
- Created and integrated a rich text editor so users can format their instructions.
- Stored and updated images with AWS S3.
